Preparing Your Quilt for Longarm Quilting

Quilt Top :

1. Press the back of your quilt top well. Please make sure that all seams are pressed flat on the back and facing in the desired direction.
2. Cut off trailing threads from the back of the quilt.
3. Indicate the 'top' (as opposed to 'bottom') with a piece of paper marked "TOP" and attach with a safety pin if necessary.
4. Fold top carefully .

Backing:

1. Choose 100% cotton. Poly/cotton and 100% polyester stretch differently and cause tucks and puckering during the quilting process. (I have large backings available also, please ask to see the samples.)
2. Remove selvages from center seams.
3. Please cut the backing and batting (if you supply it) **at least 4"** larger than your top on ALL sides (packaged batting need not be cut) Cut them as square (90 degree corners) as possible. See more information at: <http://www.christianlanequilters.citymax.com/squaring.html> on squaring the backing.
4. Press well...Backing seams should be pressed open.
5. Fold carefully and place with quilt top.

Borders.... Ask for the handout on preparing borders! Or see the website

Please ask for assistance if you have any questions in preparing your quilt, I'm glad to help make your quilt look it's best!

Quilting Estimates and Supplies Price List

Edge to Edge Design (Pantograph) **\$0.150-\$0.02 per square inch**
